

RAPTOR

Whitepaper

1. Introducing Raptor

Raptor is an experiment in decentralized community building. Together we are building a vibrant and growing community with a focus on vertically integrating the Raptor token in all community projects.

The Raptor token (symbol: RPTR) has been deployed to Ethereum mainnet and can be verified [here](#). Only 100,000,000 RPTR were minted and no more will ever exist. The tokens are not an investment opportunity.

2. Community

Raptor is owned by the community and is an open source project. Our community votes and builds projects it wants to pursue with its own funds. This approach ensures there is no centralized entity, encouraging organic growth of the Raptor ecosystem. We believe through the power of collective decentralization we can build something stronger than a centralized team ever could.

3. Our Principles

The DNA of Raptor is our community. A community-run token is nothing without the people who give it purpose. Whether you are a new recruit or part of the old guard, if you fly under the Raptor banner, you must embrace our founding principles:

- It's the spirit of our project to create something out of nothing.
- Starting with nothing means everyone has to bring something to the table.
- We give back to our community and share what we have learnt.

It is a core philosophy of ours to provide a rich, fun and engaging experience.

4. Roadmap

We are a community owned token, and will bring all proposals to community to fund and decide on. Please see our [Moon Plan](#) for details and our [website](#) and [blog](#) for updates.

5. Purpose

a. Primary Medium Of Exchange

\$RPTR is the main medium of exchange within the Raptor ecosystem. Together we are building a vibrant and growing community with a focus on vertically integrating the Raptor token in all community projects. As such the \$RPTR token will be used to access the content, perks, competitions and more.

b. Future Uses

The \$RPTR token will always be the primary token within the Raptor ecosystem. It will be integrated into any future use cases for our platform where it makes sense for the community and ecosystem.

c. RPTR Token Disclaimer

\$RPTR tokens are solely provided to create a medium of exchange only within the Raptor ecosystem. The tokens are not an investment opportunity and there is no expectation that \$RPTR tokens will ever have liquidity, any measurable value, or appreciate in value.

6. Get involved!

The Raptor Protocol is owned and built by the community. Take part in the community discussions and don't miss important updates. Visit our website to learn more.

7. Tokenomics

a. Token details

Token name: Raptor

Symbol: RPTR

Max Total Supply: 100,000,000 units

Token Distribution: Community 100%

Blockchain: Ethereum

Token Standard: ERC-20

Decimals: 18

Token Contract: 0xc2c3d431249e64542add3172665732e485928ad3

b. How will tokens be distributed in the future?

The mechanics for the distribution of tokens have not been finalized and will be put forward to the community for discussion and approval. Please visit our website to learn more.

8. Has Raptors code base been audited?

We have minimized risk by using battle-tested OpenZeppelin contracts to create our contract code. No critical vulnerabilities were found upon deployment to the Ethereum Mainnet. The Raptor codebase can be reviewed [here](#).

9. Competition

Our aim is to become a top 100 Crypto whilst building a decentralized community. Other competitors in the meme token category are:

- DOGECOIN
- SHIBA INU
- FLOKI INU
- MONGOOSE COIN

10. Where can I learn more about Raptor?

For more information on the project please consult our website.
