

RAPTOR

Whitepaper

Introducing Raptor

Raptor is an experiment in decentralized community building. Together we are building a vibrant and growing community with a focus on vertically integrating the Raptor token in all community projects. We are community owned and operated!

Our community is represented by a deflationary meme token inspired by the dank meme's that have shaped crypto culture. Our aim is to become a top 100 Crypto whilst building a decentralized community.

The Raptor token (symbol: RPTR) has been deployed to Ethereum mainnet and can be verified [here](#). Only 100,000,000 RPTR were minted and no more will ever exist. The tokens are not an investment opportunity.

Community

Raptor is owned by the community and is 100% Open Source.

As an open-source project our community votes and builds projects it wants to pursue with its own funds. This encourages everyone to help fund and build an ecosystem around the token.

We believe through the power of collective decentralization we can build something stronger than a centralized team ever could.

Founding Principles

A community-run token is nothing without the people who give it purpose. Whether you are a new recruit or part of the old guard, if you fly under the Raptor banner, you must embrace our founding principles:

1. We started from zero, with zero. It's the spirit of our project to create something out of nothing.
2. Starting with nothing means everyone has to bring something to the table.
3. He who controls the memes controls the universe. Memes are the fuel that powers the cryptoworld.

It is a core philosophy of ours to give back to our community and provide a rich, fun and engaging experience.

Moon Plan!

We are a community owned token, and will bring all proposals to community to fund and decide on. Visit our official website and blog for updates!

Get involved!

The Raptor Protocol is owned and built by the community. Take part in the community discussions and don't miss important updates. Visit our official website for twitter and discord links.

Token details

Token name: Raptor

Symbol: RPTR

Max Total Supply: 100,000,000 units

Token Distribution: Community 100%

Blockchain: Ethereum

Token Standard: ERC-20

Decimals: 18

Token Contract: [0xc2c3d431249e64542add3172665732e485928ad3](https://etherscan.io/address/0xc2c3d431249e64542add3172665732e485928ad3)

Has Raptors code base been audited?

We have minimized risk by using battle-tested OpenZeppelin contracts to create our contract code. No critical vulnerabilities were found upon deployment to the Ethereum Mainnet. The Raptor codebase can be reviewed [here](#).

Competition

Our aim is to become a top 100 Crypto whilst building a 100% decentralized community. Our competitors are:

- DOGECOIN
- SHIBA INU
- FLOKI INU
- MONGOOSE COIN

Where can I learn more about Raptor?
